

CASTELLANI' S PAINT

Written by Δρ Δημήτριος Ν. Γκέλης, Ιατρός, Οδοντίατρος, Ωτορινολαρυγγολόγος, -

Castellani's Paint

Composition: Basic fuchsin 0.4 gm%, phenol 4 gm%, boric acid 0.8gm%.

Properties:

It is an antiseptic dye effective against gram positive bacteria, some pathogenic yeasts and fungi. It is less effective against gram negative bacteria and ineffective against acid fast bacteria and spores.

Indications:

It is indicated for the treatment of superficial dermatophytoses, especially when most eczematous dermatitis is present.

Storage. Store in proper conditions in well closed container away from heat and light.

Packing: 10-15-30 ml bottles.
